Rio Java Chair

RJC29

The Rio Java chair epitomizes the WILLEM SMITH ethos: create a modest, well-scaled frame and somehow imbue it with size-defying comfort.

The wing chair-inspired silhouette has a bolstered lumbar that, in combination with a *pi*Ergonom seat cushion, delivers our signature comfort with aplomb.

The just-so seat depth, the right arm proportion, and the high-enough-to-support-your-shoulders back height all contribute to an experience we're proud to call WILLEM SMITH.

Hardwood frame. 8-way hand-tied springs. Soy-content foam.
COM/COL: 7 yards / 100 sq. ft.

29-1/2 OW x 33-1/2 OD x 32-1/2 OH. 18 SH
